SUMMARY

Lead Web Developer and Full-Stack Engineer with 3+ years of professional experience building responsive, scalable web and mobile applications. Strong expertise in React, Next.js, and TypeScript, with hands-on experience shipping AI-powered products, integrating OpenAI into production workflows, and collaborating with offshore teams.

SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Tailwind CSS, Material UI, HTML5, CSS3

Mobile: React Native, Expo, Kotlin, Jetpack Compose, Flutter, Xamarin

Backend & Data: Node.js, Express.js, Prisma, Stripe, PostgreSQL, MySQL, SQLite, Turso/libSQL, Neon

AI & Automation: OpenAI API, LLM pipelines, Email/SMS outreach automation

Cloud & Tools: AWS, Vercel, Firebase, Figma, Git, GitHub, GitLab

EXPERIENCE

Lead Web Developer

Groad Ph | Jun 2026 – Present

- Led Voucher Hunt, a voucher marketing platform for small businesses: customers spin to win a discount, book a time slot to use it, then redeem it in store — spanning an admin dashboard, a staff counter screen, and an Android app on Google Play
- Built its campaign setup (venues, bookable time slots with capacity, prizes with their own stock and win rates) and the prize draw behind it, preventing overbooked slots and double-redeemed vouchers when several customers confirm at once
- Built a loyalty points system shared across partner businesses: customers earn points on purchases and spend them in an in-app shop, with monthly statements settling what each partner owes or is owed
- Added passwordless SMS sign-in and shipped the customer app in English, Korean, Chinese, and Japanese
- Built GameLead Radar, an AI lead-discovery platform that crawls game-industry news/RSS feeds to surface pre-launch opportunities and auto-sends scored outreach emails via SMTP
- Developed an internal AI SNS Manager generating platform-specific social drafts with a human-in-the-loop approve-before-publish workflow, plus a comment-to-DM voucher campaign integrated with Shopify
- Shipped a native Android app (Kotlin, Jetpack Compose) to Google Play with CameraX recording and on-device highlight generation

Frontend / React Developer

Advanced World Solutions, Inc. | Oct 2023 – Mar 2026

- Developed and maintained enterprise web applications using React, TypeScript, Next.js, Node.js, and Material UI
- Built reusable UI components and integrated REST APIs backed by Node.js services
- Collaborated with offshore teams using GitHub/GitLab workflows, and investigated and resolved production issues to improve application stability

Fullstack Developer (OJT)

General Services Office Iloilo | Feb 2023 – May 2023

- Sole developer of a Barangay Solid Waste Management System built with React, Next.js, and an Express.js REST API
- Designed the MySQL/Sequelize data model and implemented authentication, reporting, and data management features

PROJECTS

Kwarta – Personal Finance Web App

kwarta.vercel.app | github.com/JiraldLaurea/kwarta

- Built a responsive personal finance app (Next.js App Router, React, TypeScript, Tailwind CSS) tracking income, expenses, budgets, accounts, and transfers with category-based limits
- Implemented reporting dashboards and backup & restore over authenticated user workspaces, deployed on Vercel

Sellix – Full-Stack E-Commerce Platform

sellix-ecommerce.vercel.app | github.com/JiraldLaurea/sellix

- Built a production-grade e-commerce platform (Next.js App Router, React, TypeScript) with add-to-cart, favorites, checkout, and order confirmation
- Integrated Stripe payments and NextAuth authentication via Prisma + PostgreSQL, with server-side rendering, debounced search, filtering, and infinite scrolling

EDUCATION

Bachelor of Science in Computer Science | Central Philippine University | 2019 – 2023 | Cum Laude

CERTIFICATIONS

AWS Cloud Quest: Cloud Practitioner (Jan 2026) | AWS Cloud Practitioner Essentials (Jan 2026) | PhilINITS Certified IT Professional FE (Apr 2025)

ACTION Training Program (Oct 2023 – Mar 2024) | React JS Training (Jun 2024 – Jul 2024)
